### Moree junior football receives a boost

The Moree Boomerangs junior rugby league club has received a welcome boost after signing a sponsorship agreement with construction company McNab.

McNab has signed on to become the gold sponsor for the junior team who hope to make a big impact in the coming season.

The sponsorship deal comes twelve years after the club's long awaited return to NSW Country Rugby League.

Boomerangs President Linden McGrady said the tradition and culture surrounding the club added to the excitement of players and community.

"We are proud to be associated with McNab who are sponsoring our junior team," Mr McGrady said.

"Their support ensures that there is an avenue for young aboriginal kids in Moree to play rugby league at a club where their brothers, fathers, uncles and grandfathers played before them."

McNab project manager Jim O'Dea said he was delighted to sign on as a sponsor for the Boomerangs given that the company is constructing a number of projects in Moree.

"Giving back to the communities we operate in is one of the core values of McNab.

"McNab is committed to contributing as much as possible to Moree, whether in terms of jobs, supporting local business or community groups," Mr O'Dea said.

"We look forward to the return of the Boomerangs and wish them every success for the coming season."
